

Ultimate Trail Tools

Like the 2022 Bronco® Everglades™ it's mounted to, the factory-installed ZEON 10-S WARN® winch is packed with the performance features off-roaders need most.

New Motor and Body Housing

Hello extra power and durability; goodbye loud noise and exposed wires. Automotive-grade bus bars replace unsightly wires for greater electrical efficiency, superior connection, and a cleaner look.

Contractor Control

Another piece in the durability and reliability puzzle: built to weather the storm for the long run.

Fast Line Speed, Low Amp Draw

Maximize your winch line speed while you minimize the strain on your charging system. You get 33 ft./min. no-load line speed – 27% faster than WARN's Standard Duty winches.

Industry-leading WARN Limited Lifetime Warranty

ZEON has a limited lifetime warranty on mechanical parts, and a seven-year warranty on electrical components.

Stainless Steel Hardware

Twice the corrosion resistance of entry-level winches; rated to 408 hours in rigorous salt-spray tests.

Automatic Mechanical Brakes

Powerful brake holds the full-rated load and provides great control while winching.

New Aluminum Drum Design

Large diameter for less wear on the winch rope. Includes an integrated rope anchor point for easy winch rope replacement.

Improved Sealing

Full IP68 waterproofing to keep water and the elements out.

New Three-Stage Planetary Gear Train

Maximize your winch line speed while you minimize the strain on your charging system. You get 33 ft./min. no-load line speed – 27% faster than WARN's Standard Duty winches.
