

BRAND NEW 4WP FACTORY PARTS TO GET YOU ON THE TRAIL

The complete program of 4WP FACTORY Ford Bronco Bumpers, Side Steps and Exterior Accessories are designed and engineered to provide unique style, increase overall off-road capabilities and are the ideal solutions for the customer who wants to set their rig apart from the rest of the herd.

2021 FORD BRONCO

4WP FACTORY: FRONT BUMPER

The full-width Front Bumper gives customers the option to increase their rig's grille protection, add recovery points, auxiliary lighting and works with the factory safety features. For the customer who needs more out of their rig, they can upgrade the Front Bumper with our auxiliary Front Bumper Winch Platform which provides a bolt-on solution to add a winch to get out of any off-road situation.

- // Heavy duty, full width grille and body protection
- // Tube reinforcement and bull bar, forward protection for the grill and headlights for when you are heavy rock crawling
- // Grille height tube reinforced bull bar is welded on for increased strength over bolted on bull bars
- // Cutouts for 6" single row light bars and standard cube lights
- // Optional winch platform for increased off-road and recovery capabilities
- // Compatible with 4WP Factory front skid plate
- // .125 Steel plate and 1.5" steel tube
- // 2 - D-ring recovery points
- // Customizable logo plate

PART# 61268W | \$999.99

4WP FACTORY: FRONT BUMPER WINCH PLATFORM

The auxiliary Front Bumper Winch Platform is the perfect option for the customer who wants to put their rig to the test and have some ease-of-mind knowing they have a recovery solution at their disposal. The Winch Platform is designed to integrate seamlessly with the front bumper and will accommodate most standard winches up to a 12K pull rating.

- // Optional winch mount for the front bumper
- // Will accommodate up to a 12K winch
- // No drilling needed
- // Will obstruct forward facing camera
- // .125 steel construction and light texture powder coating

PART# 61368W | \$349.99

4WP FACTORY: FRONT BUMPER SKID PLATE

The Front Bumper Skid Plate is designed to effortlessly integrate with the full-width Front Bumper to provide superior under-body protection. The Skid Plate comes trail-ready powder coated and will give the customer the confidence to take on any obstacle.

- // Core underbody protection for the most vulnerable parts under the vehicle that are prone to damage on more treacherous terrain
- // .125 steel construction and light texture powder coating
- // Works with the 4WP Factory front bumper
- // Customizable logo plate

PART# 61269W | \$349.99

BRAND NEW 4WP FACTORY PARTS TO GET YOU ON THE TRAIL

The complete program of 4WP FACTORY Ford Bronco Bumpers, Side Steps and Exterior Accessories are designed and engineered to provide unique style, increase overall off-road capabilities and are the ideal solutions for the customer who wants to set their rig apart from the rest of the herd.

2021 FORD BRONCO

4WP FACTORY: REAR BUMPER

The full-width Rear Bumper carries over the same design cues of the Front Bumper to give your rig a cohesive look when tearing up the trails or ripping down the highway. The Rear Bumper will accommodate all factory tow and safety packages while providing recovery points and auxiliary lighting provisions.

- // Heavy duty increased protection
- // Tube reinforcement rear protection for the body and taillights for when your heavy rock crawling
- // Compatible with factory tow package and backup sensors
- // Cutouts for auxiliary lights (2 pods)
- // The rear bumper provides increased body protection while complementing the OE styling
- // .125 steel plate and 1.5" steel tube
- // 2 D-ring recovery points

PART# 61468W | \$949.99

4WP FACTORY: SPARE TIRE RELOCATION BRACKET

The Spare Tire Relocation Bracket is perfect for the customer looking to run an oversized spare and requires additional clearance. The Spare Tire Bracket will reposition the spare tire 1.9" away from the vehicle and the customer will have the option to raise the spare 2.4" or 3.4" upwards to make sure they have the correct placement. Depending on the size of the spare tire customers may need to use the optional 3rd Brake Light Bracket

- // Repositions spare tire 2.4" or 3.4" upward and 1.9" out
- // Allows for a larger spare tire
- // No drill installation
- // Recommended not to exceed a 35" spare without tailgate reinforcements
- // .125 steel construction and light texture powder coating

PART# 61968W | \$199.99

4WP FACTORY: 3RD BRAKE LIGHT BRACKET

The 3rd Brake Light Bracket can be used to compliment the Spare Tire Relocation Bracket or on its own. The Brake Light Bracket will move the 3rd brake light upwards in order to clear larger spare tire or spare tire mounted accessories.

- // Raises the factory 3rd brake light to clear a larger spare tire
- // Can be used with or without the spare tire relocation bracket

PART# 61969W | \$49.99

The complete program of 4WP FACTORY Ford Bronco Bumpers, Side Steps and Exterior Accessories are designed and engineered to provide unique style, increase overall off-road capabilities and are the ideal solutions for the customer who wants to set their rig apart from the rest of the herd.

4WP FACTORY: SIDE STEPS

The hybrid Side Steps are the perfect solution for the customer who wants to bring a rugged style to their rig without compromising on function. The steps provide a functional platform to assist not only with entering and exiting a lifted vehicle but can also be used when needing to access any roof-mounted accessories.

- // Full wheel to wheel coverage for complete protection
- // Structural tubing provides increased durability
- // Top steel plating provides a usable surface to enter the vehicle and access the roof more easily
- // Bolt-on installation

2 DOOR PART#61669W | **\$799.99**

4WP FACTORY: FENDER DELETES

The Fender Deletes kit is perfect for the customer who has an eye for detail and wants their rig to look its best when getting it dirty. The Fender Delete Kit comes with 4 mounting plates to fill in the fender pockets of the vehicle when the OE fenders are removed providing a finished narrow look guaranteed to turn heads.

- // Complete Set of 4
- // For the customer who wants a narrow configuration
- // Fills the fender pockets to give the vehicle a finished look
- // Rock light provisions

BRAND NEW 4WP FACTORY PARTS TO GET YOU ON THE TRAIL

The complete program of 4WP FACTORY Ford Bronco Suspension components are designed and engineered to provide unique style, increase overall off-road capabilities and are the ideal solutions for the customer who wants to set their rig apart from the rest of the herd.

2021 FORD BRONCO

4WP FACTORY: 2.5 VSRT COILOVERS

The 2.5" VSRT Coilovers starts with a hard-anodized thick wall impact forging. The hard-anodizing not only gives a great appearance but reduces friction and bore wear. This new lineup features 17-4 PH stainless steel precipitation hardened shafts that are chrome plated for maximum corrosion and abrasion resistance. With Vehicle Specific Ride Tuning (VSRT), its specifically tuned to maximum ride quality on-road and pro performance off-road!

- // **Vehicle Specific Ride Tuning**
Improved on and off-road performance
- // **Internal Floating Piston**
To improve damping response and eliminate cavitation
- // **Impact Forged Aluminum Bodies**
For increased strength and lower shock temperatures
- // **17-4 Ph Stainless Chrome Plated Shaft**
Strength and corrosion resistance
- // **Closed Cell Foam Bump Stop**
For controlled unloading during impacts on coilovers
- // **Hand Made In The USA**
- // **Limited Warranty**
Our rebuildable coil over shocks are warranted for a period of 90 days against any manufacturing or material defects

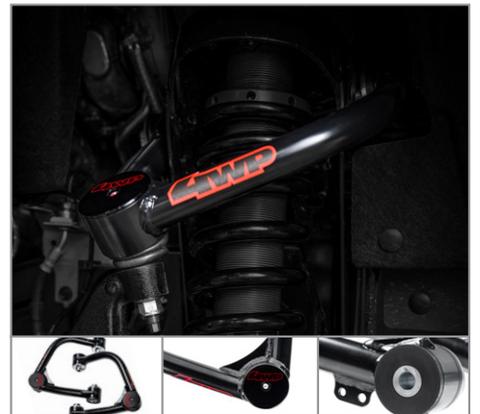

FRONT PART# 52233BX-1 | \$1,399.99 / PAIR
REAR PART# 52233BX-2

4WP FACTORY: TUBULAR UPPER CONTROL ARMS

All-new Upper Control Arm design provides the strength of a race-style uniball arm with the ride quality and characteristics of the factory part through the use of a High Angle Ball Joint. These new arms offer increased strength, alignment correction post lift and OE like ride quality on-road without the noise of traditional uniball arms. Low maintenance PTMEG bushings, helix grooved pivot points combined with a sealed dust cap provide for years of quiet performance.

- // **Provides Ideal Steering Geometry In Lifted Applications**
- // **High Angle Ball Joint**
Allows for increased strength and angle for greater wheel travel for lifted applications— without sacrificing ride quality
- // **Billet O-Ring Dust Cap and Sealed Ball Joint Assembly**
Protects the ball joint assembly from corrosion, dirt and debris in harsh off-road conditions
- // **Helix Grooved Multi-Rate Bushing Assembly Using PTMEG Urethane**
Preserves lubrication and protects from debris for less maintenance with PTMEG cross linked urethane providing more durability over standard bushings

BRAND NEW 4WP FACTORY PARTS TO GET YOU ON THE TRAIL

The complete program of 4WP FACTORY Ford Bronco Suspension components are designed and engineered to provide unique style, increase overall off-road capabilities and are the ideal solutions for the customer who wants to set their rig apart from the rest of the herd.

2021 FORD BRONCO

4WP FACTORY: ADJUSTABLE TRACK BAR

4WP Factory's new Ford Bronco rear adjustable track bar features a 1.375" x .188" wall DOM steel construction designed to center vehicle track. This track bar features an on vehicle adjustable sleeve which allows for precise axle alignment while still on the vehicle preventing the need to disassemble the suspension to adjust. This track bar includes a 3-piece multi rate bushing assembly at one end and a precision alloy FK rod end on the adjustable side for improved handling, and performance. The high clearance design allows for fitment of vehicle with 0-3" of lift with the OEM track bar mount.

- // Features double adjusting sleeve with pinch housing for on vehicle adjustability
- // Designed for vehicles with 0-3" of lift
- // Made from 1.375" x .188" wall DOM tubing
- // Stronger than OEM track bar
- // Powder coated for ultimate corrosion resistance
- // CNC machined zinc plated pinch housing
- // Zinc plated 12-point alloy steel bolts
- // Mounting location: Rear
- // All hardware included

PART# 52007B | **\$399.99**

4WP FACTORY: LEVEL LIFT KIT

4WP Factory's new Ford Bronco Level Lift is the fastest, safest, and most economical way to raise the front and/or rear of your Bronco for the proper attitude. This gives you the clearance and ability to add tires up to 35".

- // Heavy-duty construction from CNC machined billet
- // 6061-T6 aluminum alloy material
- // Precision engineered to keep OE shocks for factory ride quality
- // Modular lift heights: 2-2.5" Front & 1.5" Rear
- // End user adjustable front height
- // Increased clearance for larger tire & wheel combination
- // Allows fitment of up to 315/70R17
- // Ideal for vehicles with aftermarket bumpers and winches
- // Quick Installation without having to preload the strut
- // Easily return to stock - No cutting or welding required
