

NEW TRAIL ARMOR® FENDER FLARE DELETE KIT

Bushwacker®, the off-road icon and originator of the bolt-on fender flare, introduces an innovative addition to the Trail Armor® line of products with its patent pending Trail Armor® Fender Flare Delete Kit. The Trail Armor® Fender Flare Delete Kit for the Jeep Wrangler JL provides added protection when you need maximum clearance on the trail and opt for no flare.

- › The Wrangler JL Delete's trail-taming design delivers maximum clearance by eliminating the factory flare
- › Made of durable TPO material that protects the areas that are exposed when the flare is removed
- › Provides maximum tire clearance with a polished look when flares are removed
- › The rugged design covers all the fender holes for a light weight option and sleek body profile
- › Flows with the contours of the Jeep and its rugged, chiseled styling
- › Sold in complete sets of four to give front and rear coverage
- › Easy no drill installation and all the necessary hardware is included
- › Backed by an industry leading warranty
